

## Hand in – outsourcing reflection (10 studypoints)

### **Exercise:**

Explain how the process with the freelancer went. Suggestions for topics

- How much did you spend? Satisfied with the amount spent?
- Where did you find your freelancer? Was it the right site to use?
- How was the process of finding the right person? Would you do anything differently next time?
- How was the communication process? Could it have been improved?
- What was delivered? Are you satisfied with the quality and was the delivery what you expected?
- Did you use milestone payments? Or was there a degree of trust between you and the freelancer?
- Overall conclusions on outsourcing – is it good/bad? Why? Would you do it again?

This is not a report where you must document and prove what went on, instead we value analytic thoughts on the overall outsourcing process.

### **Groups**

Make the assignment in your project groups

### **Hand in**

1-2 pages

Hand in on mrooms no later than 13/12 23.59

### **Studypoints**

Up to 10 studypoints awarded depending on reflection. Note, you can have a completely failed outsourcing process where you didn't get anything from your freelancer, or you couldn't implement the outsourced work in your project and still get 10 studypoints, if your reflections are sufficient level.
